

Workspace refreshments. Retail without a counter.

WORKSPACE PANTRY & AUTOMATED RETAIL

Founded in 2019, Juz Vending is a Malaysian technology company providing smart fridges, workspace pantry solutions and brand activations across the Klang Valley.

KL City Centre / KL Sentral / Petaling Jaya

Attending The Unattended,
Serving The Unserved,
Reimagining The Retail Experience

Illustrative smart fridge concept.
Product ranges vary by location.

Food & drink purchases

Depending on the site and storage configuration, the selection can include bakery items, sandwiches and wraps; packaged snacks and desserts; bottled or canned drinks and juices; and salads or ready-to-eat meals where offered. Check the product packaging for ingredients, allergens and use-by information.

Prices in RM: Items for sale and their prices in Malaysian Ringgit are displayed on the fridge tray labels or LED screen, depending on the machine. Check the item and price before taking a product. Selection, price and availability vary by location.

Freshpantry: workspace pantry programmes

Food ranges, smart-fridge deployment and replenishment for offices, factories, hotels, hospitals and campuses. Employee-paid purchases or agreed employer-funded allowances and subsidies are scoped to the site. Corporate fees are confirmed by quotation and service agreement.

Brand & retail services

Sample & Score combines free consumer sampling with verified participation and campaign insights. Branded smart fridges, custom automated retail and white-label hardware services are scoped to the project. Brand and corporate campaign fees are agreed with the business client.

Simple purchases. Clear payment choices.

01

Authorise

Use the supported access method and approve any required payment arrangement.

02

Choose

Check the displayed product and RM price, then take your selected items.

03

Close

Close the door. The configured detection system confirms the basket for charging.

Payment methods depend on the deployment

Supported e-wallets, payment cards and agreed corporate allowance arrangements are shown at the machine or in its customer journey. Payments are processed through the applicable payment service provider. Other vending formats follow the instructions shown on the machine.

Authorised smart-fridge purchases

Where enabled, the applicable payment service provider obtains the customer's authorisation for the selected payment method before a paid smart-fridge session. An active authorisation can support subsequent eligible purchases: once the door closes and the basket is confirmed, the customer is charged for the products taken. This is purchase-based billing rather than a fixed consumer subscription. Provider checks and authorisation limits apply.

Sample & Score is free for consumers. Eligible sample redemption and feedback require no consumer purchase payment or payment mandate. Contact verification, campaign eligibility and any reward terms apply.

Support, refunds and authorisation cancellation

Email cs@juzvending.my for a billing issue or payment-authorisation cancellation request. We assist under the applicable provider process and confirm the status or next steps; cancellation controls and timing depend on that provider. Refunds normally return to the original payment method where supported. We respond to refund requests within 3 business days and aim for approved refunds to arrive within 7-14 business days, subject to provider processing.
